### **DETAILED ACTION**

1. In view of preliminary amendment filed January 21, 2004, claims 1-19, 28, 31, 33-36 have been cancelled. Claims 20-27, 29-30, 32, 37-48 are pending.

### ***Allowances***

2. Claims 20-27, 29-30, 32, 37-48 are allowed.

3. The following is an examiner's statement of reasons for allowance:

As of the date of this office action, the examiner has not located or identified any reference that can be used singularly or in combination with another reference including the closest prior art of Yasumatsu et al. (US 4,426,477) to render the present invention anticipated or obvious to one of ordinary skill in the art.

The closest prior art Yasumatsu et al. (abstract) discloses a thermoplastic resin composition comprising a vinyl chloride resin, and a glycerin ester comprising  $R_1$ ,  $R_2$  and  $R_3$  groups. However, Yasumatsu et al. are silent on a a glycerin ester compound having  $R_1$ ,  $R_2$ , and  $R_3$  as a branched chain acyl group (a long acyl group) and having a saturated chain having 10-20 carbon atoms and a hydrophilic branch group. Therefore, it would not be apparent to one of ordinary skill in art to use the composition teachings

Art Unit: 1713

of Yasumatsu et al. to obtain the composition invention of claims 20-27, 29-30, 32, 37-48. The invention of claims 20-27, 29-30, 32, 37-48 is allowed.

In light of the above discussion, it is evident as to why the present claims are patentable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
